DETAILED ACTION

1. Claim 13 is objected to, as "the data" lacks proper basis in the claims.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by McCormick.

McCormick shows the claimed invention, including a "Z-drive" which is laterally pivotable relative to the watercraft. A trim cylinder is provided.

4. Claim 13 is rejected under 35 U.S.C. 103(a) as being unpatentable over McCormick as applied to claim 1 above, and further in view of DE 3434211.

McCormick fails to disclose the measurement of the angle of the Z-drive.

DE '211 teaches provision of a sensor on a Z-drive for angle measurement.

It would have been obvious to one of ordinary skill in the art at the time of the invention to provide McCormick with an angle measurement means as taught by DE '211.

Such a combination would have been desirable at the time of the invention so as to provide precise orientation of the unit.
